

FUNDACIÓN BIOFÍSICA BIZKAIA / BIOFISIKA BIZKAIA FUNDAZIOA

JOB OFFER FOR A GRADUATE IN CHEMISTRY AND MSC IN CHEMISTRY OR
SIMILAR (Temporary contract – Two months)

Date of publication: October 16, 2018

The “Fundación Biofísica Bizkaia/Biofísica Bizkaia Fundazioa” (FBB) was created in 2007. The main aim of FBB is to support the Biofísica Institute (UPV/EHU, CSIC) for the sustainable development of Biophysics Research in Biscay and in Spain, by promoting, performing, supporting, and funding research activities, as well as training graduate students and broadcasting the progress and discoveries in the area of biophysics.

Details of the project:

You will be working on the Molecular Spectroscopy Group focused on the Structural elucidation of molecules of biological and astrophysical interest.

The candidates should have a minimum of Chemical Degree and MsC in Chemistry or similar. Experience in microwave spectroscopy and laser spectroscopy will be appreciated.

Contact: The applicants are encouraged to send the next information through the Biofísica website contact page (<http://biofisika.org/contact/>) adding the following subject: [Job Application: 34EJC]

1. Curriculum Vitae
2. Description of previous research

Deadline: October 26, 2018

Please note that due to the large number of applicants expected, it will not be possible to communicate evaluation results to all the candidates.
