FUNDACIÓN BIOFÍSICA BIZKAIA / BIOFISIKA BIZKAIA FUNDAZIOA

OFFER – POSTDOC POSITION

Publication date: December 19, 2018

Fundación Biofísica Bizkaia (FBB) is a center of excellence on an international level with the main aim of promoting a multidisciplinary program in the field of Biophysics and its application in the areas of Biotechnology and Health.

Description of the Project

Through this project we aim at unveiling the complete sialoproteome of the zebrafish and mouse brain. To this end, novel in vivo tools have been developed and validated.

Education and Experience required

The candidates should have a PhD in Biology with a strong experience in zebrafish development.

Contact: Applicants are encouraged to send the next documentation through the Biofisika website contact page (<http://biofisika.org/contact/>), adding the following subject: [**Job Application: 39XC**]

1. Curriculum Vitae
2. Reference letters
3. Description of previous research

Deadline: December 27, 2018

Please note that due to the large number of applicants expected, it will not be possible to communicate the evaluation results to all the candidates.
