

Fundación Biofísica Bizkaia
Biofisika Bizkaia Fundazioa

FUNDACIÓN BIOFÍSICA BIZKAIA / BIOFISIKA BIZKAIA FUNDAZIOA

OFFER – Postdoc position

Publication date: January 16, 2020

Fundación Biofísica Bizkaia (FBB) is a center of excellence on an international level with the main aim of promoting a multidisciplinary program in the field of Biophysics and its application in the areas of Biotechnology and Health, focusing all its resources in Instituto Biofisika Institutua (UPV/EHU, CSIC).

Description of the position offered

The successful candidate will be joining Jerome Solon's laboratory (biophysics of morphogenesis). The position involves the development of machine learning based techniques to analyze imaging data from biological samples.

Education and Experience Required

The candidate should have a PhD in Biology or Physics and experience in image analysis and computational approaches.

Contact: Applicants are encouraged to send the next documentation through the Biofisika website contact page (<http://biofisika.org/contact/>), adding the following subject: [*Job Application: 58JSolon*]

1. Curriculum Vitae
2. Reference letters (if possible)

Deadline: January 28, 2020

Please note that due to the large number of applicants expected, it will not be possible to communicate the evaluation results to all the candidates.
